

2/90 SIGNS

IT'S OUR BUSINESS.

OUR ROOTS ARE IN CORPORATE AMERICA, THE ENVIRONMENT THAT SPARKED OUR FIRST PRODUCT.

2/90 Modular was inspired by the open work plan, and our business has continued to evolve as the ways we work change, too. Today, we offer solutions for interior and exterior wayfinding, along with dynamic options like digital communication and changeable messaging that reduces waste and makes signage more sustainable.

Our design capabilities have continued to grow, giving you exciting new possibilities to enhance your facility's aesthetics or promote your brand. Our sign systems are designed for easy updates, letting you change inserts whenever needed instead of changing the entire sign. We can also assist you with wayfinding analysis and programming; fabricating a system of interior and exterior signage; providing professional demolition and installation; and maintenance programs for easy reordering and updating when your needs change. Inside and out, 2/90 architectural communication solutions can improve your staff's and visitors' perception of your facility.

PLANNING/DESIGN

THE ESSENTIAL FIRST STEP TO A SUCCESSFUL NAVIGATION SYSTEM.

Our SEG (Society of Experiential Graphic Designers) partners can help map out an effective wayfinding plan. We will create a functional, attractive, and cost-effective solution that is tailored to your needs and maintains your facility's compliance with federal and local regulatory standards.

FABRICATION

ALL THE OPTIONS TO MEET YOUR SPECS FOR TODAY AND TOMORROW.

We fabricate our sign systems in-house, guaranteeing consistent quality and timely delivery for every order. A full line of standard products, quick-deliver options, and custom capabilities provide solutions for any interior or exterior application. We also support our modular signage with perfectly matched replacement inserts.

INSTALLATION

OUR EXPERT INSTALLERS ENSURE YOUR SIGNAGE GOES UP PERFECTLY.

Make the most of all the professional design, planning, and craftsmanship that went into your signage by relying on our professionally-trained and certified personnel to install it. Regardless of the size or complexity of your installation, we provide complete turnkey service to save time and protect your investment for years to come.

MAINTENANCE

2/90 IS THE ONLY SIGN MANUFACTURER WITH AN APP FOR THAT.

With innovative tools like SmartCare+, it's easier than ever to protect your wayfinding investment. Our proprietary app can be customized to utilize your sign standards and planning documentation, helping record maintenance issues efficiently and effectively - all through a mobile device. We also support our signs with illustrated maintenance manuals and quick-ship programs that make reordering simple and fast.
