QUESTIONS? WE HAVE ANSWERS™

Let 2/90 Sign Systems design a comprehensive wayfinding plan for your school.

Today there are more questions than ever, and 2/90 Sign Systems has the ANSWERS™ to help students and staff safely return to the classroom. A collection of signs and social distancing products will reinforce school policy and minimize risk.

It starts with signage to maintain clear and effective communications. Answers™ offers two sign solutions: KlikLess and Plaques. Based on budget and required functionality, 2/90 will help you decide which one fits your needs.

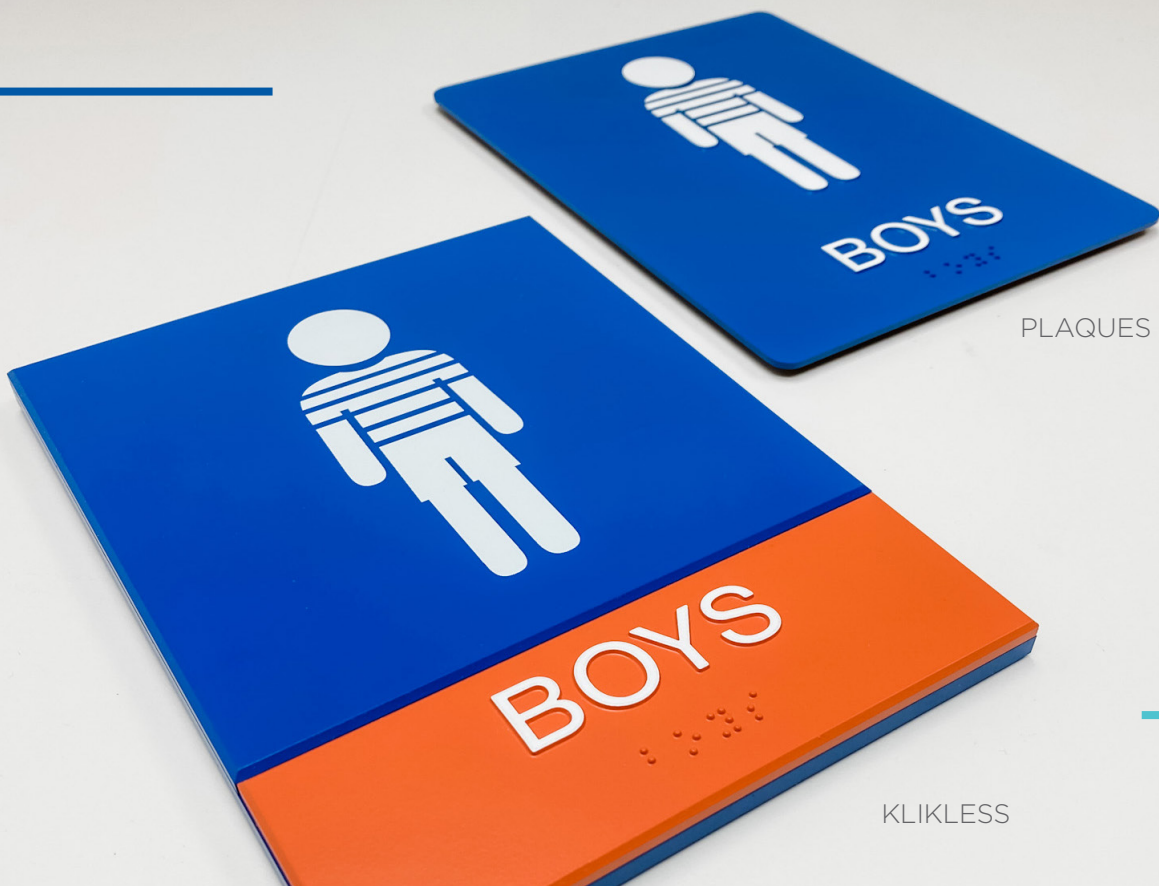

Simply provide us your school's floorplan and we will develop a plan to communicate your building's wayfinding program and social distancing policies. 2/90 Sign Systems has 40+ years of wayfinding experience to help you plan for a safe and healthy restart of the school year.

KLIKLESS

A sign solution with a changeable paper insert option

KlikLess is an economical alternative to 2/90's Klik Modular Sign System. Signs have the look and feel of their Klik counterparts while lowering overall project costs. The physical difference is that inserts are permanently attached to their baseplates. The paper insert option allows for limited changeability. Less modularity equals less cost.

- 3/16" thick acrylic insert permanently attached to 1/4" thick acrylic baseplate
- Beveled edges
- Changeable paper inserts in painted aluminum window carrier with .080" non-glare lens
- Photopolymer ADA graphics
- Direct print non-ADA graphics
- Tape mount unless otherwise specified
- Available in one or two color option
- Changeable insert option available by upgrading to Klik Modular Sign System

PLAQUES

A cost-effective sign solution with non-changeable messages

Changeable signage is essential for schools. However, some signs rarely, if ever, need to change. Plaques are a cost-effective solution to identify, inform, regulate, and direct while providing ADA compliance.

- .093" thick ABS plastic or photopolymer plaque
- Round corners
- Non-changeable
- Photopolymer ADA graphics
- Direct print non-ADA graphics
- Tape mount only
- Available in one color option only

MORE QUESTIONS? WE HAVE MORE ANSWERS™!

SOCIAL DISTANCING OFFERING

In addition to signage, 2/90 also ANSWERS™ your needs with a series of products for a safe return to the classroom.

MESSAGES™

WINDOW SIGNS

provide communication where it matters most. The right message, in the right location, at the right time makes all the difference to ensure everyone has the information they need.

GESUNDHEIT™

PROTECTIVE BARRIERS

help stop the spread of germs and promote good health. Barriers come in 1/4" clear acrylic with freestanding and panel mount options.

STEP ON IT™

FLOOR DECALS

promote healthy social distancing when strategically placed to help everyone navigate safely through your school. They are available in a variety of sizes and shapes for carpet, hard floors, and outdoor applications. Floor decals install easily with peel and stick adhesive and are durable for up-to six months.
