704 Black
708 Soft White
710 Light Grey
714 Antique White
715 Yellow
720 Buckskin
722 Beige
725 Orange
732 Oyster
733 Pearl Grey
734 Dark Grey
735 Red
736 Cardinal Red
737 Burgundy
756 Sapphire Blue
757 Bright Blue
758 Navy Blue
772 Slate
775 Green
776 Forest Green
785 Duranodic
786 Sandstone

NOTE: Subsurface Copy creates a slight green halo around letters. Therefore, it is recommended to choose light-colored colors so the outline blends or choose bright colors to distract.

The following are some of our favorite combinations:

- 734 Dark Grey Copy with 782 Alfalfa Sign Color or any of our other green colors (select lighter copy colors like 708 Soft White or 710 Light Grey to contrast the darker green shades).
- 708 Soft White Copy with 806 Rain Sign Color or any of our other pastel colors (again select 734 Dark Grey for more contrast).
- If you want more of a pop, try our brighter sign colors like 807 Berry or 757 Bright Blue with 708 Soft White copy color – the vibrant colors distract from the green outline.

But if you are still in doubt, run it by the team and we can order a sample to ensure a happy client!
