# FLXSIGN™

FLEXIBLE IN MORE WAYS THAN ONE.

FLXSIGN is a versatile line of ADA-compliant signage that prioritizes safety and convenience. Made from lightweight, pliable materials, these signs are specifically designed with smooth edges to prevent any potential harm. Perfect for hospitals, nursing homes, K-12 schools, and hospitality settings, these signs meet recommended safety requirements. With window inserts for effortless graphic changes, a durable vacuum-formed material, and raised tactile characters with domed Braille for ADA compliance, FLXSIGN offers a user-friendly experience. These signs are vandal-resistant and can be easily installed without the need for tools.
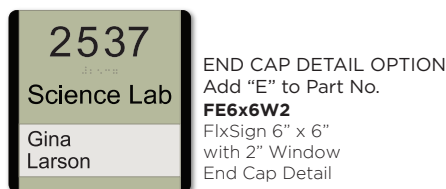

Add a subtle pattern or image to complement the environment and add a touch of sophistication to your space.

//FLXSIGN™

A COST-EFFECTIVE, ADA-COMPLIANT SOLUTION.

2/90's standard offering includes a complete family of ten sign types that identify, inform, and regulate. Sign and copy colors include 2/90's Prism and Designer colors to help you create a consistent visual look throughout a facility. The look of decorative end caps can be added for an additional cost. Custom colors, shapes, and sizes are available.
