HEALTHCARE

GOVERNMENT CASE STUDY

Client:	Indian Health Service – Kayenta Health Center	Date:	2022-2026
Location:	Kayenta, AZ	Value:	$1.4 Million
Scope:	Wayfinding Planning & Programming, Interior & Exterior Signage, Manufacturing & Installation		
Products:	Slide Modular Sign System, Directional Signage, Department & Room Identification, Exterior Wayfinding & Identification		

Challenge: Kayenta Health Center needed to improve wayfinding across its 180,000-square-foot healthcare campus, where patients, visitors and staff relied on an inconsistent mix of existing signs and temporary information. Serving a widely dispersed rural population, KHC needed a clear, intuitive system to identify medical services, improve circulation and parking navigation, and adapt as departments and facility needs changed.

Solution: 2/90 began with a comprehensive facility assessment, working with KHC departments to evaluate patient and staff circulation, existing signage, parking, entrances and destinations throughout the campus. The resulting wayfinding plan established a coordinated interior and exterior signage program using flexible modular signage that could be updated as the facility evolved. 2/90 then supported the program through design, manufacturing and installation, providing KHC with a cohesive, maintainable long-term wayfinding solution.

HELPING PEOPLE FIND THEIR WAY. With more than four decades of experience planning, installing, and maintaining signage systems, 2/90 has a proven history of successfully managing turnkey signage projects. We have manufactured and installed comprehensive architectural communication solutions for many prestigious government facilities.

Our 2/90 interior architectural facility signage systems and advanced fabrication capabilities allow us to create high-quality signage to complement any environment. An extensive offering of colors, finishes, and countless options with insert configurations, graphic elements, and product enhancements, provide a sustainable, modular interior sign solution for our valued clients.
